

Digital Design & Computer Organization Lab Virtual Reality Environment

By : Mariam Al Nuaimi

Welcome to my VR experiment

What you are expected to do:

- Navigate through the application and follow several tasks.
- Give your honest review.
- Have fun!

*This test is an observation test I will observe your usage of the application and take notes.

Introduction to the Application

- This application is a Digital Design & Computer Organization Lab VR simulator.
- It is made to gamify the lab experience and add a little fun to it!
- If you are familiar with the content of the lab or have a little experience with building electrical circuits this application should be just like a little educational game.
- Do not worry if you have no experience, ROBO the virtual assistant will try his best to help you through the labs!
- VR games might give you a little motion sickness sometimes If you are uncomfortable, please let me know

List of the tasks to accomplish

1. Register and log in to the application.
 2. View the help me page.
 3. View the “about tools” page and interact with tools.
 4. Click on a highlighted area on a tool to view more information about it.
 5. Go back and view the list of labs and choose a lab to complete.
- * For this experiment, it is ok to play one level only (one lab).
6. Complete a lab of your choice and view the leaderboard of one or more of the labs.

Feedback

Please scan the QR code to provide your feedback! Your feedback is completely anonymous!

Next Step

Experiment 02: the study of Gamification effects

You are invited to attend the second experiment.

Rewards are to be handed to those who decide to participate in the second experiment.

If you are interested, please scan the QR code to register.

Thank you!
